

Dancing Backwards

Violet Hetherington, recently widowed, has taken the rash step of joining a transatlantic cruise to New York to visit Edwin, an old friend and long-ago lover. As she makes the six-day crossing, she relives the traumatic events that led to losing his friendship and abandoning her career as a poet for the safety of marriage. Moving between the late sixties and the present day, *Dancing Backwards* is written with the lightness of touch and psychological insight that characterizes much of Salley Vickers's widely acclaimed work. This bittersweet novel is subtle, poignant, and wonderfully entertaining.
